PERSONAL SUMMARY

Front-End Developer with experience in building interactive and responsive web applications. Worked both in a team and as a freelancer, focusing on developing user interfaces, working with APIs, implementing localization (i18n), managing state using Redux Toolkit, and creating animations. I prioritize user experience, performance, and code quality, leveraging modern technologies and best practices.

SKILLS

- **Technologies**: React, Redux Toolkit, TypeScript, JavaScript, RESTful APIs, HTML5, CSS/SCSS.
- **Design and UI**: UX/UI Design, Responsive Web Design, theming, and multilingual support (i18n).

- **Development and Testing**: Storybook, Loki, Jest, CI/CD Pipelines, Webpack, Vite, Prettier, ESLint, Stylelint.
- **Tools**: Git, GitHub, Gulp, npm, Babel.

EXPERIENCE

FRONT-END DEVELOPER / WEBSITE LAYOUT DEVELOPER
FREELANCE | Nov 2023-Current
- Developed and maintained user interfaces using HTML, CSS, SASS, JavaScript, TypeScript, and React.
- Integrated RESTful APIs, managed state with Redux Toolkit and RTK Query.
- Utilized build and testing tools (Webpack, Vite, Storybook) for creating and testing components.
- Set up CI/CD processes, used Prettier, ESLint, and StyleLint for code consistency.
- Conducted component testing with Jest and Loki to ensure UI stability.

Front-End Web Developer
WECAN-IT | Namestovo, Slovakia | Oct 2022-Nov 2023
- Created user interface components using React.
- Integrated API requests to fetch and process data, including RESTful APIs.
- Implemented virtual lists using a virtualization library for efficient handling of large data volumes.
- Tested components with Jest to ensure basic functionality.
- Set up theme switching and multilingual support using i18n.
- Collaborated with designers to create visually appealing user interfaces.
- Configured CI/CD processes for automated deployment, enhancing team efficiency.
- Used Storybook and Loki for visual component verification and quality control.

WEBSITE LAYOUT DEVELOPER
KLEPKA.DIGITAL | Uzhhorod, Ukraine | Aug 2021-Oct 2022
- Created dynamic websites with pixel-perfect accuracy, leading to positive feedback from clients and users.
- Implemented complex animations and improved user experience using third-party libraries (GSAP, Swiper, @barba/core).

- Developed adaptive versions of websites without ready-made designs, ensuring accessibility across different devices.
- Mentored beginner developers, assisting them in mastering key skills and reviewing their projects.
- Independently developed a large-scale project (50+ pages), including responsive layout and functionality.

EDUCATION AND TRAINING

Certificate: FRONTEND DEVELOPMENT

UlbiTV | Online | February 2024

Completed "Front-End Developer" course covering:
- HTML, CSS, JavaScript, React.
- Project setup: Webpack, TypeScript, Vite, SCSS.
- Testing: Jest, Cypress, React Testing Library.
- Developed 20+ UI components, focused on accessibility and bundle optimization.
- Implemented theming, filters, search, sorting, CI/CD.

Certificate: JAVASCRIPT / REACT / REDUX

Udemy | Online | January 2022

Learned:
- Fundamentals of JavaScript and programming concepts.
- Framework React, Redux.
- Created full-fledged web applications and applied skills on real projects.

Certificate: WEB DEVELOPMENT

Freelancer For Life - Quality IT Education | Online, Ukraine | May 2021

Completed "Front-End Developer" course covering:
- HTML, CSS, JavaScript, React.
- Project setup: Webpack, TypeScript, Vite, SCSS.
- Testing: Jest, Cypress, React Testing Library.
- Developed 20+ UI components, focused on accessibility and bundle optimization.
- Implemented theming, filters, search, sorting, CI/CD.
